THE FACTORY

Una tradizione millenaria vive ancora nel cuore della laguna di Venezia, grazie ad un'azienda che interpreta con stile inconfondibile l'arte del vetro soffiato per l'illuminazione. Esperienza, cura del particolare ed un servizio attento alle esigenze dei clienti, sia residenziali che contract, sono le qualità di Mazzuccato, una grande firma del vetro artistico di Murano.

A thousand-year old tradition is still alive in the heart of the Venetian lagoon, thanks to a company which interprets with an unmistakable style the art of glass blowing for illumination. Experience, attention to detail and service dedicated to the needs of customers (both residential and contract), are the qualities of Mazzuccato, one of the great names in artistic glassmaking on Murano.

THE DESIGNER

Quando il design sposa una materia nobile come il vetro, lavorato secondo le antiche tecniche dei maestri delle fornaci di Murano, nascono realizzazioni straordinarie ed uniche.

Mario Pippolini è riuscito ad inserire talento ed intuizione in una tradizione millenaria, vincendo la sfida più difficile: innovare nel classico.

When design is united with a material as noble as glass, which is developed using the traditional techniques of the masters of the furnaces of Murano, extraordinary and unique creations are born. Mario Pippolini has successfully united talent and intuition with a thousand-year old tradition, overcoming the most difficult challenge: innovation in the realm of the classical.

THE COLLECTION

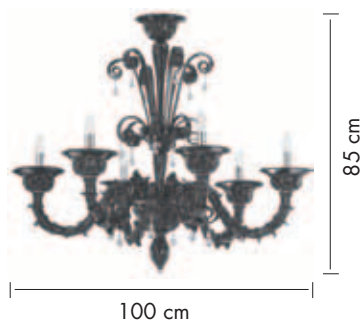

Una nuova linea per reinterpretare il lampadario classico veneziano attraverso l'innovazione del design, senza trascurare l'antica tecnica del vetro soffiato.

Forme nate dall'acqua e dal fuoco, che prendono il nome dai venti che le modellano; otto creazioni uniche, ripetibili solo dalle mani abili dei maestri vetrai di Murano, e per questo marchiate in oro con la firma di Mazzucato Murano.

A new collection to reinterpret the classic Venetian chandelier by means of innovation in design, without sacrificing the traditional technique of glassblowing.

Shapes born from water and fire, which take the names of the winds that form them; eight unique creations, reproducible only by the able hands of Murano's master glassmakers, which are therefore branded in gold with the signature of Mazzucato Murano.

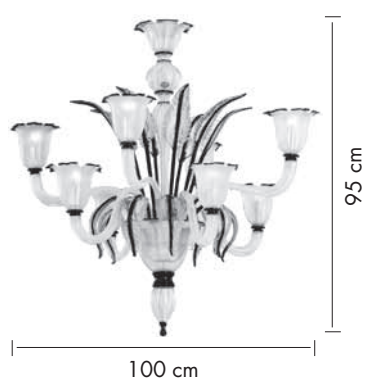

MP10/6 | Ø 100 _ h 85 cm
